SHORT SUPPLY LINES

100
KILOMETRE
procurement radius

85%
OAK
15% ash, beech...

35 000 m³/year
SAWING CAPACITY

13 000 m³
ANNUAL DRYING CAPACITY

01
SELECTING
the best ranges, mostly from **the local and sustainable** forests of Burgundy.

04
CLASSIFYING
each product according to what you will be using it for.

02
OPTIMISING
the cutting and sawing of the materials that come from them.

05
HELPING YOU
through our efficient sales and logistics teams, who are always ready to listen.

03
RESPECTING
the materials by adapting the sawing technique.

OUR VISION

For more than 60 years, our company, the people who are its foundation, our expertise and our reputation have been committed to our guiding principle: respecting the materials. We are committed to this for our clients in both France and abroad, whether you are a specialised business, major manufacturer, fitter, craftsman or landscaper. We use our expertise with a vast range of products, and you can count on our guarantee of quality service adapted to your needs and changing markets.
